

14 January 1959

MEMORANDUM FOR: Chief, Foreign Intelligence, DD/P
THROUGH: TALENT Control Officer, DD/P
SUBJECT: Request for Clearance

1. This office is now engaged in planning for the installation of a complement of Eastman Kodak's Minicard Equipment and the DD/P has a contract with IBM to develop another data management system. We, in PIC, feel that an exchange of ideas, plans, machine capabilities, and goals between the people responsible for each system would be of incalculable value.

2. Since no discussion of value can take place without disclosing some substantive information, it will be necessary for your office to request TALENT clearances for [redacted] Assistant Executive Officer, DD/P and [redacted] Business Machines Analyst, DD/P, [redacted]
